

Docking plate

Crawford DP6050AWB

ASSA ABLOY

ASSA ABLOY Entrance Systems

The global leader in door opening solutions

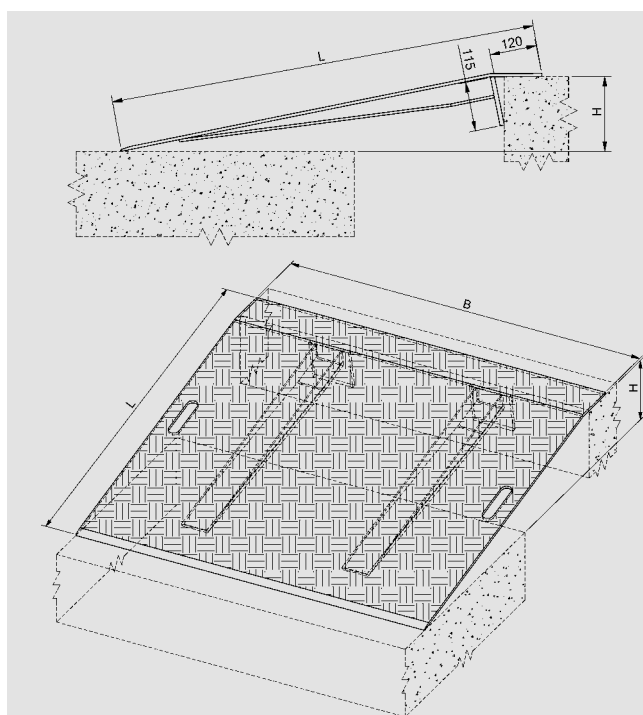

The economical dock plate solution

The Crawford DP6050AWB dock plate is the optimal solution when the frequency of goods does not justify an expensive stationary docking system or to overcome bottleneck caused by high loading frequency at existing docking stations. It is designed for loading and unloading with hand pallet trucks, roll cages and trolleys.

The high-tensile light metal allows weights up to 12 kN. The Crawford DP6050AWB dock plate complies with the European EN 1398 standard.

Feature and benefits:

- Light weight for easy handling
- Non slip surface for safe transshipment of goods
- Easy to keep clean
- Robust and weather resistant
- Low cost investment

Type	Order Number	Length (L)	Width (B)	Height Difference (H)		Load Cap (kgs/ea)	Weight (kgs/ea)
